	Cost per GB	N/A
	Minimum charge	\$228.00
Tier 100* Typical Evening Speed: 75 Mbps	Minimum monthly charge	\$99.00
	Cost per GB	N/A
	Minimum charge	\$248.00

Information about the service

The Service:

Our NBN Broadband service offers post-paid asymmetrical internet interface connection via the National Broadband Network where available and an included data allowance. You can choose to have your speed reduced (shaped) to 512kbps once you have used up all your included allowance or you can continue using the service at the same speed tier and pay excess data charges. There are no peak or off-peak restrictions on your use.

Mandatory components:

If your existing connection is nonstandard, NBN Co will discuss any additional charges with you and these charges will appear on your first bill. You will require a router or firewall at your premises for this service to work. We can provide our Home Network Gateway for self-installation at no cost. Additional charges apply for Home Network Gateway installation and replacement. We will deliver your service to the Network Boundary Point at your premises, which is defined as the physical port or 'UNI' on the NBN Network Termination or port on the Home Network Gateway if selected. The cabling that is required in your premises beyond the Network Boundary Point is your cost and responsibility, as is the provision of a suitable 240V AC power outlet. Please contact us for further information. All

bills are delivered by email and Direct Debit from either a bank account or credit card is required.

Minimum term:

The service is available on a month to month basis with no fixed term.

Important conditions:

Once you take up a phone and broadband service on the NBN you **cannot** move back to services on the existing copper network. You may upgrade your Tier or your plan allowance once per month. Charges may apply if you wish to downgrade your tier. This service may not be available at your location. Please call us to find out if you can be connected to this service at your location.

You must obtain the consent of the property owner to have the NBN installation performed. Standard Installation is included at no charge if the service is to be connected in an existing developed area and we can arrange the required installation appointments for you. If you need a first connection in a newly developed area, NBN Co will levy a charge of \$300.00 (incl. GST) and this will appear on your first bill. A subsequent install charge of \$300.00 will apply if 1) additional NBN connections are requested at the same address 2) a new copper pair needs to be connected to complete the NBN connection.

NBN Broadband

Critical Information Summary

Interface speeds refer to the speed of the technology installed at your premises. They are not necessarily equivalent to the download/upload speeds you will achieve in practice. Actual download and upload speeds will be affected by many external factors which include the number of end-users using the service at the same time, the hardware, the software and software configuration, the connection method within the premises and the type/source of content being downloaded. In the case of NBN connections delivered using FTTN (Fibre to the Node) technology, the distance you are away from the node will affect maximum available speeds.

Information about pricing

Minimum monthly charge:

Please refer to table on previous page for pricing information.

Maximum monthly charge:

The maximum monthly charge depends on whether you have chosen to consume additional data via our excess charges.

Billing:

We will bill you in advance for the minimum monthly charge and features and in arrears for data. Your first bill will include charges for part of the month from when you took up your plan until the end of that billing cycle, as well as the minimum monthly charge in advance for the next billing cycle.

Activation Fee:

An Activation Fee of \$149.00 applies for all plans.

This is a once-off charge and will appear on your first bill.

Unit Pricing Information:

Please refer to table above for unit pricing information.
